SPRINGFIELD, IL (April 16, 2019)   – Maintaining accurate voter registration lists is one of the most important duties for Illinois' 108 local election authorities. To highlight this important work, the Illinois State Board of Elections will include a monthly recap of voter registrations and changes in registration status in its monthly meeting agenda going forward.

The following document is excerpted from the April agenda. The first page contains a glossary of terms used in the spreadsheet that follows. Illinois currently has more than 8.2 million registered voters, its highest number ever.

The State Board of Elections is an independent state agency charged with the responsibility of having general supervision over the administration of election laws of the State of Illinois. Elections are administered locally by the State's 108 election authorities.

Re: March 2019 Registration Activity

Date: April 4, 2019

As requested, data has been compiled to reflect a snapshot of registration activities which occur across the State every month. As the Statewide database is compiled from the local registration databases, otherwise known as a "bottom-up" registration system, these counts are depicted from the local level. Therefore, a new registration is new per the local jurisdiction, but may not be new to the State as it could be a transfer from another jurisdiction. An update as shown here is an update within a local jurisdiction. As well, a registration cancellation may be cancelled in one jurisdiction because it was transferred to another jurisdiction within the State.

Below are definitions for each column of the spreadsheet, which follows this memo.

New Registration: Registration records that are new to a Jurisdiction.

Registration Cancelled: Registrations records where at the request of the voter, by a certified death certificate, confirmation from the voter that the person has moved outside of the election jurisdiction, or a criminal conviction where the person is confined in prison or Inactive for two federal elections. These records have been marked cancelled in the local system.

Registration Inactivated: Registration records where a correspondence to the individual is returned as undeliverable for the address indicated, another mailing has been sent to the voter that is forwardable and that mailing has not been returned. These registrations have been placed in an Inactive status for a period of 2 federal elections. A voter in this status has the availability to show they still live at the current address and can vote.

Registration Updates: Registration records that have been updated at a jurisdiction by having an address or name change.

Registration Transfer OUT Initiated: Registration records where a Transfer has been initiated from the old jurisdiction.

Registration Transfer IN Initiated: Registration records where a Transfer has been initiated into the new jurisdiction.

Potential Duplicate Matched: Registration records identified by the statewide system as potential duplicate registrations in two or more jurisdictions. Each jurisdiction first determines if the registrations are for the same individual and then determines which record is the most current. The most current registration will remain active and the older record will be marked as canceled.

Jurisdiction Name	New Reg.	Reg. Cancelled	Reg. Inactivated	Reg. Updates	Reg. Transfers OUT Initiated	Reg. Transfers IN Initiated	Potential Duplicates Matched	Date Range
